News from the NWSSA:

It is with great anticipation the NWSSA Committee would like to announce the 2008 stallion line up. First, however, we would like to thank every stallion owner that has donated to the NWSSA this year and in the past. It is a great vote of confidence for you to donate to the NWSSA with all of the other auctions across the nation. Also, we want to thank the mare owners who have supported the NWSSA in the past and that will support the NWSSA in the years to come. Without you the NWSSA could not exist!

After much interest and debate the committee decided that this would be a great year to up the stallion line up to 52 stallions. The committee decided to do this for a few reasons. One reason was

the interest we have had by stallion owners and mare owners. The NWSSA has had another great showing by local and outside of Zone One stallions. We also decided that raising our line up would help the NWSSA have 50 stallions to auction. It has seemed over the last few years NWSSA has lost several stallions before and after the auction. We, as many of you, have noticed the seemingly high number of stallion deaths and injuries the past couple of years. So it made a lot of sense to the NWSSA committee that the stallion line up be increased. This is not meant to be a permanent change, but if it is received well by the NWSSA participants, our line up may stay at the level of 52 stallions in 2009. The committee members also wanted to usher this change in with one of the best stallion lineups of any NWSSA. So with that said, the 2008 NWSSA committee would like to introduce the **fantastic** 2008 NWSSA stallion line up! We hope that you all are as excited about this great line up as we are and we hope to see you all at NWSSA in 2008. As always, the committee would like to hear your thoughts about the recent changes to the NWSSA and where you would like to see the NWSSA go in the future.
